LAVA DENTAL

PRODUCT HIGHLIGHTS

Beautiful and well-maintained teeth are simply essential in daily life. We are irresistibly drawn to a BEAUTIFUL SMILE, and naturally, everyone wants to make a great first impression. Whether it's at a job interview, during the daily work routine, or on a first date, fresh breath and radiant teeth perfectly complete any PROFESSIONAL APPEARANCE.

With LAVA DENTAL, you not only have fresh BREATH but also a smooth and WELL-CARED-FOR FEELING that accompanies you throughout the day, no matter how exciting it may be.

Face every challenge with a radiant smile.

- VOLCANIC MINERAL Zeolite-Clinoptilolite
- GENTLE CLEANING
- FRESH BREATH
- FLUORIDE-FREE
- VEGAN

DETAILED INFORMATION

ZEOLITE-CLINOPTILOLITE – THE VOLCANIC MINERAL WITH A PEELING EFFECT

The natural volcanic mineral Zeolite-Clinoptilolite contains minerals that gently clean your tooth surfaces from stubborn plaque, much like a peeling. Your teeth feel instantly smooth and clean. But this volcanic rock offers even more.

It acts as an ion exchanger, attracting heavy metals like a magnet and, in return, releasing the minerals contained in its crystal water into your mouth, benefiting your gums as well.

ORGANIC MINT OIL – FRESH BREATH, EVEN WHEN YOU'RE OUT OF BREATH

You're likely familiar with the distinctive taste of mint and its refreshing effect from various teas or chewing gums. Here, the steam distillate from organic spearmint and the essential oil of green mint give you an irresistible feeling of freshness and pleasant breath.

ORGANIC ALOE VERA

This popular plant with its thick, fleshy leaves is cherished for its valuable plant juice. Used in cosmetics since ancient times for its regenerating properties, it provides special care for your gums.

IRISH MOSS & STEVIA

Taste meets fresh breath. The combination of the Irish Moss algae with the sweet-tasting plant from South America perfectly complements the positive taste experience of LAVA DENTAL.

FLUORIDE-FREE

LAVA DENTAL is fluoride-free, completely vegan, and free from artificial additives like silicones, petroleum products, and synthetic fragrances or colorants. It's the perfect dental care for the whole family and is also well-suited for children aged 6 and above

.

LAVA DENTAL

ZEOLITH

LAVA – QUALITY

NATURAL PRODUCT: Carefully selected natural raw materials form the foundation of our LAVAVITAE products.

EXCEPTIONAL QUALITY: This is ensured through innovative formulations and high-quality processing under the strictest quality standards.

PREFERABLY VEGAN: Where possible and appropriate, we consciously avoid animal ingredients.

LAVAVITAE REFINEMENT: The special natural resonance process restores the original vibrational energy of our products..

APPLICATION

2 x daily

It is generally recommended to brush your teeth twice a day. Simply apply a hazelnut-sized amount of LAVA DENTAL to your toothbrush and gently clean your teeth using circular motions. Remember to always brush from the gums toward the tooth tip to ensure your gums are also well cared for and stimulated.
