

## LAVA PURE

Even though you eat healthily, exercise, and lead a relatively healthy lifestyle, and medically everything is in the green zone, you still sometimes feel **ENERGYLESS**, experience **DIGESTIVE ISSUES**, suffer from **HEADACHES**, notice thinning hair, have dull skin, and your **SKIN APPEARANCE** resembles that of a teenager in their prime.

## PRODUCT HIGHLIGHTS

LAVA PURE not only supports the detoxification of your body but also helps to regenerate an imbalanced digestive system. Thanks to its silicon content, it contributes to the maintenance of normal hair and nails and supports the firmness of connective tissue.

Support your health-conscious **LIFESTYLE** with this natural and effective **DETOX MEASURE**.

- ✓ **REGENERATION** of the intestinal wall barrier
- ✓ **RELIEF** for liver and kidneys
- ✓ **BALANCING** the body's over-acidity
- ✓ **ELIMINATION** of toxins

## DETAILED INFORMATION

### ZEOLITE-CLINOPTILOLITE – PURE VOLCANIC POWER

This is a volcanic mineral made from aluminosilicate, which acts as a cation exchanger. There are many zeolites, but very few are pure enough to be safely ingested. LAVA PURE exclusively uses high-purity material that is extracted using clean mining techniques and then micronized and activated through a patented and globally unique processing method.

### DOLOMITE – NATURAL STRENGTH AND ENDURANCE

The widely distributed alpine rock dolomite consists mainly of calcium and magnesium carbonate. Calcium and magnesium are not only important for normal muscle function, but they also contribute to the maintenance of bones and teeth and have a positive influence on our energy metabolism.

### ENVIRONMENTAL POLLUTION PROBLEM

It's not always the everyday stress that takes a toll on our bodies; often, it's the substances we don't see or taste but unknowingly ingest. Environmental pollution is omnipresent, and we daily absorb pollutants that can burden us over time and lead to disruptions in the body.

### MECHANISM OF ACTION

The natural medical product LAVA PURE has the ability to bind pollutants such as lead, cadmium, arsenic, chromium, nickel, or ammonium and excrete them naturally through stool. In return, minerals and trace elements contained in the crystal water are released through ion exchange. Support your health-conscious lifestyle with this natural and effective detoxification measure.

### POSITIVE EFFECTS

Regeneration of the intestinal wall, liver, and kidneys  
Improved nutrient absorption  
Positive impact on the microbiome  
Strengthening of the immune system  
Reduction of inflammatory processes

Benefit from the purely physical and preventive function of this natural material.

### COMMITMENT TO CLEAN SPORT

Our products, LAVA PURE Capsules and LAVA PURE Powder, are regularly tested for selected doping substances.

## LAVA – QUALITY

**NATURAL PRODUCT:** Carefully selected natural raw materials are the foundation of our LAVAVITAE products.

**EXCEPTIONAL QUALITY:** This is ensured by innovative formulations and high-quality processing under the strictest quality standards.

**POWER OF NATURE:** We rely on the intelligence of nature and strive to minimize the use of any additives and excipients.

**PREFERABLY VEGAN:** Where possible and appropriate, we consciously avoid the use of animal-based ingredients.

**LAVAVITAE REFINEMENT:** A special natural resonance process optimizes the vibrational energy of our products.

## APPLICATION

Take LAVA PURE daily as a powder or in capsules with a glass of water.

- ✓ Powder: 2–3 times daily, one level measuring scoop
- ✓ Capsules: 3 times daily, 3 capsules each
- ✓ between or with meals
- ✓ a minimum 3-month intake is recommended

For more vitality,  
health, and well-being!
